### **NEW GRINNELL Copper Grooved Fittings NSF 61, Annex F Standard**

**Lansdale, PA** (July 30, 2012) – On July 1<sup>st</sup> new performance guidelines for certification to NSF 61 were put into effect. Compared to previous NSF 61 requirements, the Annex F standard significantly reduced the amount of lead leaching allowed during extraction testing. Grinnell Mechanical Products is pleased to announce that all GRINNELL Copper Grooved Fittings adhere to the new requirements of NSF 61, Annex F. This change was made to protect consumers by reducing the amount of lead consumption through drinking water. GRINNELL, a brand of Tyco, is committed to providing the utmost quality products to customers by continuously meeting standards of trusted authorities.

To learn more about GRINNELL Copper Grooved Fittings, contact your local GRINNELL Mechanical Products Territory Manager or visit [www.grinnell.com](http://www.grinnell.com).

#### **About GRINNELL Products**

GRINNELL, a premium brand of Tyco International, delivers quality piping solutions for a full range of mechanical, HVAC, mining, commercial, industrial, institutional, and governmental applications. Available products offer contractors, engineers, and distributors faster, more cost-effective tools for joining pipe over traditional welding methods. Innovative GRINNELL products include couplings, fittings, mechanical tees, valves, and accessories as well as complete systems for joining copper, stainless steel, plain end, G-PRESS press-fit, HDPE, and G-MINE PVC components. Comprehensive, competitively priced engineering and planning support services provide labor and cost savings. All GRINNELL products are backed by an industry-leading, 10-year limited warranty except for G-MINE products, which carry a six-month warranty. For more information, visit [www.grinnell.com](http://www.grinnell.com).
