GRINNELL Technical Data Book

Updating Instructions

May 2011

Refer to the new Table of Contents, dated May 2011, that replaces the prior issue, dated April 2011.

Section	Remove	Insert	Notes
5: STAINLESS STEEL, COPPER, AND HDPE	—	G512 (05-11)	Technical Data Sheet G512 describes the new GRINNELL Figure 640 Pivot-Bolt Rigid Grooved Coupling. This coupling provides a rigid joint that firmly grips the entire circumference of the copper tube groove. Because only one bolt requires tightening and the Grade EDPM Gasket is designed for one-stop push-on, this coupling is designed to save installation time.
9: INSTALLATION INSTRUCTIONS	G900 (04-11)	G900 (05-11)	Technical Data Sheet G900 has been updated to clarify bolt torque specifications and to include installations instructions for the Figure 640 Pivot-Bolt Rigid Grooved Coupling.
