Grinnell Offers New Tools for Grooved Customers

January 24, 2007- Tyco Fire & Building Products is pleased to announce the availability of their new PT1000 Pipe Measuring Tape. With an easy to use viewing window, the tape is designed to quickly show if the groove dimension is within proper tolerances. The versatile Grinnell Pipe Tape works for both steel 1" to 12" IPS (Iron Pipe Size) and copper 2" to 8" CTS (Copper Tube Size).

Grinnell also recently introduced a new installation handbook for its grooved mechanical products. This pocket-sized catalog includes product installation instructions, dimensional data, and an easy-to-use engineering reference section. Customers can view the electronic version of this document by visiting the literature section of www.grinnell.com.

About Tyco Fire & Building Products
Tyco Fire & Building Products is a global manufacturer of water-based fire suppression system components and ancillary building construction products. It continually expands its capabilities through aggressive research and product development to provide its customers effective fire protection and construction solutions for residential, commercial, industrial and institutional buildings. Its products are sold worldwide under the following brand names: Acrobe, Ancon, Central, Central SpraySafe, GEM, Grinnell, Lindapter, Rapid Response, Star, Unistrut and Wopf.
